**To whom it may concern,**

**Date: 20 August 2019**

My name is Joseph Commisso and it is with great pleasure in offering my recommendation of Vishal Uniyal, whom completed his internship at PETspot between February 2019 and August 2019.

During his time here, it was apparent to me that he was a punctual, proactive, polite and driven individual who displayed a sense of pride in his work in which reflected on his output. Vishal demonstrated he was capable of effectively utilising his skills through the set tasks assigned to him on a consistent basis.

This involved ideating, innovating and implementing projects to improve back end development, including:

- Wordpress Coding structures
- Used the following coding languages: PHP, HTML, CSS
- Javascript, jQuery
- MySQL Database
- FTP/SSH Remote connections
- AWS
- Working with overseas IT departments

I am thrilled to have had the opportunity for Vishal to complete his internship here at PETspot.

Please do not hesitate to contact me if you should require any further information.

**Yours Sincerely,**

**Joseph Commisso**  
**Director**
